

4825 Glenbrook Road Weekly Update for Oct. 10, 2014

This week crews continued moving the Engineering Control Structure, and they made extensive progress. Based on this week's faster than expected movement, we anticipate removing the large crane from the site during the weekend of October 18th. We will provide you an updated schedule next Friday, October 17th.

Safety continues to be our number one priority at the site. Throughout every phase of the project, all necessary precautions are taken to ensure the safety of the site workers, the residents of the community, and those driving by.

To reach a Spring Valley Army Corps representative in the event of an after-hours emergency, please call the project's 24-hour hotline: 1-888-393-0059. During business hours, please continue to call the Spring Valley Community Outreach Team at 410-962-0157.
